EDUCATION

Duke Kunshan University (DKU) & Duke University Dual Degree

Class of 2029

- **Intended Major:** Bachelor of Science in Data Science
- **GPA:** 3.60/4.00
- **Core Courses:** Introduction to Programming and Data Structures, Probability and Statistics, Linear Algebra, Computation, Society and Culture, Calculus I, Physics
- **Activities:** AI club, Computer Science Club, Global Student Ambassador, Global Citizenship Living Learning Community (LLC) member, Sino-Foreign Model United Nations organizing team, Tennis club.

Kunshan, China
Durham, U.S.

AWARDS AND HONORS

1st Place - AI for Civic Innovation Hackathon

June 2026

Code for Pakistan · FAST University Islamabad · 1st out of 162+ teams across Pakistan [[GitHub](#)]

- Built **Sach Batao**, a WhatsApp-native multilingual AI scam detection bot for Pakistani citizens: supports text, voice, image & PDFs.

1st Place - Qwen AI Hackathon

July 2026

Qwen Pakistan [[GitHub](#)]

- Built **Sehat Saathi**, a multilingual AI medical assistant for low-literacy Pakistani citizens: explains handwritten prescriptions and reads them into medicine schedules and picture-based medicine alarms.

95% merit scholarship at Duke Kunshan University

PROFESSIONAL EXPERIENCE

Franchable

June 2026-Present

Go-To-Market (GTM) Engineer

New York (Remote)

- Built and automated a Python pipeline to extract and enrich franchisee lead data from 200+ franchise FDDs, producing 10,000+ ICPs monthly for SBA loan outreach and cutting per-franchise processing time from 2 hours to 10 minutes.
- Deployed cold outreach copywriting workflows through Instantly across 200+ franchise brands, replacing manual email drafting with a repeatable system that generates personalized outreach at scale.

Systems Limited (Forbes Asia, best under a Billion 2024)

July-August 2026

AI/ML Intern

Lahore, Pakistan

- Contributed to deploying open-source LLMs on company-owned GPU servers using vLLM and LiteLLM, giving developers a self-hosted alternative to paid coding assistants and cutting recurring subscription costs by \$6 Million/year.
- Built the evaluation framework and API layer to benchmark self-hosted models (DeepSeek, GLM, Qwen) against commercial tools, using React, FastAPI, and pydantic to wire latency, cost and pass-rate metrics into a database for model selection.

Language and Culture Center, Duke Kunshan University

Jan-May 2026

Chinese Language Peer Tutor

Kunshan, China

- Held 2 walk-in tutoring sessions per week for international students learning Chinese, covering conversational fluency, tone pronunciation, grammar patterns, and vocabulary retention
- Kept a running record of each student's progress and coordinated with the Language and Culture Center to keep tutoring aligned with ongoing course syllabi.

INSIDER (SMC-PVT) LTD

June-July 2023

Marketing Intern

Lahore, Pakistan

- Designed marketing strategy by analyzing sales and marketing trends through the software 'semrush' and Excel.
- Increased viewership by 70% and received endorsement from the company CEO.

RESEARCH

Large Language Models for Algorithm Design (LLM4AD)

Mar 2026-Present

Research Assistant to Dr. Mustafa Misir, Associate professor of data & computational science (DKU)

Kunshan, China

- Evaluated LLM-assisted pipelines for algorithm design, integrating large language models with iterative search methods (e.g., evolutionary and neighborhood search) to optimize candidate solutions.
- Implemented and experimented within a unified Python framework, enabling systematic comparison of LLM roles (generation, prediction, optimization) across algorithmic tasks.

Genomic Mechanisms of Thermal Adaptation in Arctic *Pseudomonas*

April 2026-Present

Research Assistant to Dr. Huansheng Cao, Assistant Professor of Environmental Science (DKU)

Kunshan, China

- Analyzed whole-genome sequencing data from 4 Arctic *Pseudomonas* species evolved under heat stress for 500 generations, identifying SNPs, structural variants, and copy number variants.
- Identified 7 genes mutated across multiple species pointing to shared genomic targets of thermal selection across independent lineages.

Lahore University of Management Sciences (LUMS)

Aug-Dec 2024

Research Assistant to Dr. Qasim Imtiaz, Postdoctoral fellow at Massachusetts Institute of Technology (MIT)

Lahore, Pakistan

- Conducted quantitative analysis of coffee's chemical & physical composition; Analyzed effects of roast time, temperature & water on flavor using mass spectrometry and refractometry.

ADDITIONAL INFORMATION

Leadership & Service: Board Member - DKU Student Leaders Board (student government); Member - Student Partnership for Innovation and Change in Education (SPICE) Committee; Member - Undergraduate Academic Review Board; Member - Campus Food Service Committee

Languages: English (fluent), Chinese (Beginner), Urdu & Punjabi (native)

Technical Skills: Python, Java, C++, FastAPI, Git, React, VB.net, MATLAB

Certificates: Artificial Intelligence & Machine Learning (Insider.pk), Python full course for Beginners (Code with Mosh), Climate change and Human rights (Amnesty International)
